WellComm Training for Pre-school, Nursery and Early Years

This training enables participants to become familiar with the Wellcomm toolkit enabling them to support the speech and language needs of children within their setting.

Both sessions must be attended. Participants must have access to a Wellcomm Toolkit, and bring this with them to the workshops. DSPL7 will fund £200 towards the total cost of the WellComm Toolkit (£400) for settings within DSPL7, who do not already have one.

Aims:

To enable participants to

- understand what Well-Comm is
- Use the screening tool
- Record results

Suitable for:

- Early Years Foundation Stage staff.
- Pre-school and Nursery staff; including key workers.
