

Legoclub St Albans at Fleetville 2020

 **find us on Facebook**

Legoclub was set up for children on the autistic spectrum and those with special needs. It is a friendly place where they and their parents can enjoy a change of scenery whilst really being themselves! This is a relaxed event for children and young people to create, socialise and develop friendships.

Parents, this time is for you to relax. Bring your book, paper, shopping list or friend and take some headspace. If you want to talk or wonder what services might be available please ask the organisers, they are happy to listen & signpost.

Coffee, tea and biscuits are available and packed lunches are welcome.

For many of our children transitions are difficult. We know tidying up and going home can easily cause an upset. Feel free to leave just before tidy-up time, we want parents to have a relaxing time and an easy departure.

Following feedback from the girls attending we now also have some "girly" Lego!
